Unit Breakdown of Postdoctoral Scholars

Units with Highest Number of Postdoctoral Associates

Units with Highest Number of Postdoctoral Fellows

2018 Initiatives & Highlights

Outreach & Communications

Postdoctoral Associate Job Code

- Outreach to units to encourage adoption of the 1312 job code continues. All units contacted in July-August 2018.
- Individual meetings with units to explain the benefits of the job code were held

Record Number of Outstanding Postdoc Award Nominees

- For NPAW, a record 13 nominations were received for outstanding postdocs. This is likely attributable to the new outreach to mentors in which OPA is engaged.

Stronger Cross-Campus Partnerships (see chart on page 8)

- Partnering more closely with [Faculty Teaching Excellence Program](#) (FTEP), Career Services, Graduate School, Biofrontiers, CIRES
 - f University subscriptions for [Versatile PhD](#) and [National Center for Faculty Development & Diversity](#), two professional development resources
